DEMOCRACY SUITE®

BENEFITS

Dominion has invested in the development of proprietary technology that truly sets its products apart from the competition. Focusing on two key aspects of the electoral process **– risk-limiting auditing and voter intent –** *Dominion's technology improves the transparency and integrity of the election process.*

- **AuditMark® technology:** Each digital ballot image has an AuditMark® appended at the bottom, showing a record of how that ballot was interpreted by the tabulator on Election Day. Why bother purchasing a scanner if it can't tell you what it read?
- **Marginal Mark detection:** This feature makes it possible for voters to clarify their intent when they cast their ballot. Thresholds can be configured to jurisdictional requirements.
- **Complete end-to-end system auditability:** Every action taken on the tabulator and the election management system is recorded in a permanent, unalterable digital log.
- **Engineered simplicity:** Dominion's voting systems are designed to be easy-to-use for voters, poll workers and election officials.
